opinion on this subject?

Give a 1-minute summary of a text (about 100 words) about university life and of a conversation (about 1 minute) on the same topic

Give a 1-minute summary of an academic text (about 100 words) and of a lecture (about 1 minute) on the same topic

- You will have 45 seconds to read the text and take notes. You will then listen to a conversation between two students on the same topic, and will be asked to answer a question. You need to briefly summarize the content of the text and to express the student's point of view, restating his arguments.
- the text and the recording both tackle an academic topic. You will be asked to explain the topic and to highlight the connection between the text and the audio track

In a minute, give a summary of and your opinion about a discussion/conversation (about 1 minute and 45 seconds) between students

Give a summary of a lecture (about 1 minute and 45 seconds)) on an academic topic

- This student will be talking to another student, or sometimes to a professor or a member of the university staff. In most cases, the student explains his or her problem and the other person tries to find a solution. You will have to sum up the problem, explain the solutions that were put forward in the discussion and say which one of them you think is the best. When giving your point of view, you can use the ideas from the recording and/or offer your own thoughts on the subject.
- You will then have to talk about the topic of the audio track using what you have heard. The question tests how well you understand a concept explained by a professor.
