Understanding Argument: Exercise 4

Which THREE of the following arguments are stated by the writers of the passage?

QUESTION 11

A. Not everyone agrees that chimpanzees copy each other's behavior.

B. Chimpanzee behavior depends on the type of tool that they use.

C. Chimpanzee behavior is best understood by observing them in their natural habitat.

D. Children are better imitators than chimpanzees.

E. Captive chimpanzees have a clearer idea of how to open nuts than those in the wild.

F. Chimpanzees' observation of parent behaviour is vital to their development.
